Arm Internship For Graduates Program 2025

Description

The Arm Internship Program offers a unique opportunity for students and recent graduates to immerse themselves in the cutting-edge field of semiconductor and technology design. As an intern at Arm, you will be part of a dynamic team that develops and enhances the technologies that are at the heart of billions of devices worldwide. This program provides practical experience in a world-leading company that is shaping the future of computing.

Responsibilities

- Collaborate with experienced engineers to design, develop, and test semiconductor products and solutions.
- Assist in the evaluation and improvement of existing technologies.
- Participate in team meetings and contribute to brainstorming and problem-solving sessions.
- Document project developments and prepare reports for presentation.
- Support the team in various day-to-day tasks to ensure smooth project execution.

Qualifications

- Currently pursuing or recently completed a degree in Electrical Engineering, Computer Science, or a related field.
- Strong analytical and problem-solving skills.
- Basic understanding of semiconductor design, microprocessor architecture, or related technologies.
- Excellent communication and teamwork abilities.
- Proficiency in programming languages such as C, C++, or Python is a plus.

Job Benefits

- Gain hands-on experience in a leading technology company.
- Work alongside industry experts and innovators.
- Access to Arm's extensive resources and state-of-the-art facilities.
- Opportunity to attend training sessions and workshops.
- Networking opportunities with professionals and other interns in the field.

Experience

This internship is ideal for students and recent graduates seeking to gain practical experience in the technology and semiconductor industries. Previous internship experience is advantageous but not required, as Arm provides comprehensive training and mentorship.

Skills

- Technical skills in semiconductor technology and software development.
- Ability to work independently and as part of a team.
- Strong organizational skills and attention to detail.
- Adaptability to new technologies and approaches.
- Enthusiasm for learning and professional development.

Arm Internship

Employment Type

Full-time, Intern

Duration of employment

6

Industry

Semiconductor Manufacturing

Job Location

Sheffield, England, United Kingdom,
S1, England, Sheffield, United Kingdom

Working Hours

8

Base Salary

10

Date posted

January 23, 2025

Valid through

09.09.2026

Interested candidates should submit an application through Arm's career portal. The application should include a resume, cover letter, and any relevant academic or project work. Shortlisted candidates will be invited for an interview, where they can showcase their skills and passion for technology. The selection process is highly competitive, aiming to find the next generation of innovators for Arm.
